

2022 PREMIER CONFERENCE SPONSOR

At Allergan Aesthetics, an AbbVie company, we develop, manufacture, and market a portfolio of leading aesthetic brands and products. Our aesthetics portfolio includes facial injectables, body contouring, plastics, skin care, and more.

With our own research and development team focused on driving innovation in aesthetics, we are committed to providing the most comprehensive science-based product offerings available. We create the products and technologies that drive the advancement of aesthetic medicine.

At Allergan Aesthetics, we believe in the remarkable impact confidence can have on the lives, businesses, and careers of those we serve through our history as a company built on patient care, education and support of our customers, and our commitment to putting the patients we serve first. That is why we dedicate ourselves, every day, united by a single purpose: empowering confidence. For our customers, their patients and one another, we create the products and technologies that drive the advancement of aesthetic medicine.

AbbVie's identity is shaped by the work we do - producing innovative medicines, continually investing in our pipeline, and giving back to create healthier, more vibrant communities. Most of all, this identity has been shaped by the beliefs we share that have emerged organically since AbbVie began.

The pursuit of scientific breakthroughs is more important than ever as we develop solutions for immunology, oncology, neuroscience, eye care, virology, and women's health, as well as through our Allergan Aesthetics portfolio.

We care deeply for patients and customers, their families, our employees, and our communities. We strive to always do the right thing, pursuing the highest standards in quality, compliance, safety, and performance.
