ADVANCING DERMATOLOGY FOR EVERY SKIN STORY

With a unique heritage in dermatology as well as decades of cutting-edge innovation, Galderma is the leading company solely dedicated to advancing the future of dermatology. We deliver an innovative, science-based portfolio of premium brands and services across Aesthetics, Consumer Care and Prescription Medicine. Through trusted partnerships with healthcare professionals, we ensure to meet individual consumer and patient needs with superior outcomes.

Everyone's skin is unique and we each have our own skin story. At Galderma, we embrace these differences and offer cutting-edge, premium brands that fit people's individual needs, across the full spectrum of dermatology through Aesthetics, Consumer Care and Prescription Medicine.

Refining and reinforcing our purpose has drawn us together as the Galderma that we are today. In line with our ambition to become the leading dermatology company in the world, it reminds us each and every day why we do this: We are advancing dermatology for every skin story. We aim to make an impact in the lives of consumers by providing innovative and effective aesthetic solutions. We provide our customers with the treatments, services and education to help their clients achieve optimal results that enhance their skin and meet their individual needs.

We have decades of Aesthetics innovation and unique heritage in hyaluronic acid (HA) fillers and botulinum neuromodulators. Already established as one of the market's leading companies, we are growing our comprehensive portfolio of recognized brands and services trusted by healthcare professionals and their clientele.

At Galderma, innovation is the cornerstone of our commitment to advancing dermatology. For 40 years we have distinguished ourselves as one of the few players capable of creating, developing and bringing to market truly innovative dermatological solutions for the needs of consumers and patients. This would not have been possible without our partnerships with the **trusted healthcare professionals** who use and prescribe our products and contribute to innovation.
